

Danica Page

Animator

♥ About Me

Since childhood I've wanted to work in the art industry. I've always had a passion for animation and the creative arts. Since school days I've sketched, taught myself to play guitar and dabbled in graphic design and animation.

Being born in South Africa and living Spain for 3 years has allowed me to experience and appreciate different cultures, languages and art forms.

This is not just a career to me, it's a calling. I am always working to improve my skills and knowledge as an Animator. I am reliable, competent, efficient, organised and have excellent time management skills. I enjoy a challenge and learning new things.

🎓 Education
